

CV

Manolis Plionis is professor of Observational Astronomy at the Aristotle University of Thessaloniki. His research interests are focused on observational and theoretical cosmology, numerical cosmology, galaxy formation constraints of dark Matter models, AGN, large-scale density and velocity fields. He obtained his B.Sc. in Mathematics from the University of Crete and a Ph.D. in Astronomy from the University of Sussex. He worked as postdoctoral fellow at SISSA, ICTP (Italy), INAOE–Mexico, National Observatory of Athens. Author of 100 scientific publications, with more than 2350 citations. Referee in scientific journals and member of scientific surveys.
